## OBJECTIVE

Web Developer with an ability to effectively self-manage during independent projects, as well as collaborate in a team setting. Mobile first approach, with focus in fronted development with CSS, SCSS, Bootstrap, JS, JQuery, and React. Committed to utilizing my skills to further the mission of a company, while making key decisions and working with other professionals to achieve goals and solve problems.

## PROJECTS

### Nektur

May 2021 — Present

In this MERN Stack application I worked on is a social media platform that allows all developers connect with each other. Some of the Technologies that I used is JSON Web token for the authentication, Bcrypt Password Hashing, React hooks. MongoDB(Atlas), and Heroku & Git deployment.

### Audio Engineer Portfolio

Feb 2021 — Present

This is a front-end portfolio I created for a client. Building this site I used Scss, and JS for the type writer style on the landing page.
